SUMMARY OF ST. LOUIS MARKETS.

Following the usual custom, traders on the Merchants' Exchange devoted more attention to horse play than to trading on the last day of the old year. There was no safety card in the session, lest the leaders of the Dec. deal should give the screws a shake. When it was found that all of the outgoing traders might be settled privately on a basis acceptable to both sides there was little time for further operations. Few commission-houses had outside orders, and statistical conditions were mildly bearish. Receipts of wheat were heavy, and there was little foreign demand.

Corn came off after the settlement of the Dec. deal. Cleage let most of the shorts out at 46c. This was regarded as a reasonable basis of closing the trade. May sold off near the end of the session on heavy receipts and favorable weather and crop conditions.

May wheat opened 1/4c lower and closed 1/4c off.

May oats closed 1/4c off.

Receipts of produce were moderate and values were about steady.

Local securities had excellent investment support and closing prices were generally higher.

Yesterday's bank clearings were \$8,544,111; balances, \$1,129,653. Discount rates were steady between 5 and 6 per cent.

Spot cotton was steady in the local market.

SPECULATION IS LIGHT ON LAST DAY OF YEAR.

WHEAT AND CORN SLIGHTLY LOWER.

December Contracts Are Settled and Shorts in Corn Are Relieved.

After a rather dull session in a speculative way, the wheat and corn markets closed lower. The closure of the Dec. deal did not cause the wild excitement which had been predicted by some traders. As a rule, settlements were made privately, and the public was not informed. The market was reflected in the pit. The Government report was generally construed as furnish and other news, and was favorable to the market. Receipts were large and there was little outside demand.

May wheat opened 1/4c off and sold at:

May wheat, 70c; No. 2, 69c; No. 3, 68c.

In contrast, the oilseed market was interest. Early in the session Cleage, through John Thysen, his broker, accepted settlements on a basis of 46c for this. This reduced the price of the oilseed. Most of the shorts accepted the terms, which they considered very reasonable in view of the fact that the cleage contingent had been present. Its acceptance had been holding up the price at the last minute. May declined on local receipts and the Government report. May corn opened 1/4c off and sold at:

May corn, 39c; No. 2, 38c.

Cash market—Receipts of wheat at St. Louis, 65,450 bu., of which 200 sacks and 61 cwt. local and 9 cars through.

Receipts of wheat at various points, 50,750 bu., and the shipments 10,450 bu. The Northwest received 36,200 bu. and Kansas City 13,600 bu. Clearances 5,600 bu.

Receipts of corn at St. Louis, 122,400 bu., of which 113 local and 25 cars through. In contrast, the oilseed market was interest.
